FULL STACK DEVELOPER | DISCIPLINED | TECHNICAL | MOTIVATED | BUILDER

Self-taught and resilient full stack developer with a strong foundation in software development, data structures, and systems design. Known for balancing full-time work while earning a computer science degree, demonstrating drive, time management, and grit. Passionate about solving meaningful problems through technology, with a proven ability to turn ideas into functional applications. Entrepreneurial mindset, fast learner, and always ready to take on complex challenges.

I'm not just another entry-level developer. I'm a builder, a problem-solver, and someone who brings resilience and heart into everything I create. Whether I'm launching an app to fight food insecurity or helping my family plan their taxes, I show up with purpose. I'm looking for a team where I can grow, contribute meaningfully, and solve real-world problems through code.

TOP ACCOMPLISHMENTS & PROJECTS

- Completed a B.S. in Computer Science while working full-time jobs
- Paid off a full car loan through self-discipline and financial planning
- Led local campaign strategy that helped win a McHenry County Board seat
- Family's trusted tax preparer and personal budget planner, managing over six annual returns
- Conducted safety inspections at Northwestern University, ensuring facilities met full compliance standards

Smart Pantry App: Founder & Lead Developer React Native, Firebase, GitHub (Launching Summer 2025)

- Created and independently developed a mobile app aimed at reducing food waste and fighting hunger. The app allows users to scan grocery receipts, automatically populate their pantry inventory, and receive recipe suggestions based on items they already have. Users can also opt to donate surplus or unused food to local pantries through integrated community partnerships.
- Originated the idea after researching world hunger and food waste patterns.
- Designed intuitive UI/UX for a streamlined cooking and donation experience.
- Built back-end infrastructure using Firebase for real-time inventory and secure authentication.
- Overcame early-stage business and technical obstacles by self-teaching and leveraging open-source communities.
- Demonstrates initiative, problem-solving, and a mission-driven approach to software development.

E-Commerce Web Application: Capstone Project, NIU HTML, CSS, PHP, SQL

- Collaborated with a student team to build a basic e-commerce platform.
- Created a front-end shopping interface and a secure login system.
- Developed SQL-backed database for item tracking and customer information.
- Led database schema planning and supported front-end integration.

EDUCATION & TECHNICAL SKILLS

Computer Science, Software Development Concentration Northern Illinois University – DeKalb, IL: B.S. | GPA: 3.05 | Dec 2024
Relevant Coursework: Data Structures, Discrete Math, Software Engineering, Network Programming, Databases
McHenry County College – Crystal Lake, IL| A.S. in Computer Science | GPA: 3.74 | Dec 2019
Technical Skills: Languages: JavaScript, C++, Python, Swift, Java, HTML/CSS, SQL
Frameworks & Tools: React.js, React Native CLI, Node.js, Firebase, Git, Xcode, Visual Studio Code, IntelliJ

EXPERIENCE

Regal Rexnord — Assembler Marengo, IL | Feb 2025 – Present

- Assemble precision smart actuators for clients including US Auto and Yamaha
- Follow engineering blueprints and schematics to build electromechanical components
- Conduct quality checks to confirm operational reliability
- Support production team goals with high accuracy and efficiency

Northwestern University — Lab Compliance Inspector 2023

- Conducted inspections of research and laboratory spaces
- Reviewed safety logs and submitted compliance reports to university stakeholders
- Helped maintain full compliance during external audits

Amazon — Delivery Driver
Arlington Heights, IL | Oct 2023 – Feb 2025

- Delivered 100+ packages daily with a 98%+ on-time success rate
- Navigated logistics, optimized delivery routes, and resolved real-time issues

Hines Supply — Production Associate
Pingree Grove, IL | Aug 2022 – Oct 2023

- Trained five new hires on quality and safety protocols
- Identified daily process inefficiencies and suggested workflow improvements

Grayhill Inc. — Manufacturing & Data Entry Associate
Carpentersville, IL | Oct 2018 – Jun 2022

- Maintained data accuracy across three production lines
- Helped reduce scrap and error rates by identifying inconsistencies early
